

AUTO PAINTING EXPLAINED

BETTER PRICES! BETTER PAINT! BETTER SERVICE! "NOW THAT'S MORE LIKE IT!"

THE AMERICAN

This is an inexpensive enamel base paint that has been around for years. This paint job is for people that are on a budget or are going to sell their car. It comes with a basic hand sanding and a 2-year guarantee against peeling and cracking- It does not cover fading. You will need to wash your vehicle every week and wax it 3 to 4 times a year to maintain the finish on your paint job. This paint service takes 1 to 2 days to complete.

THE FLORIDIAN

Unlike the American, it is a true polyurethane base paint, a paint that is more durable compared to the enamel and is used on UPS trucks, airplanes, and boats. It holds up against the elements very well and comes with a 3-year guarantee against fading. You need to wash and wax your vehicle to keep the finish looking good. This paint service takes 1 to 2 days to complete depending on the condition of the car.

THE SIMULATOR

This is our most popular paint service! It has all the components that make it great! This includes a basic hand sanding, 2K Sealer, Integrated Clear, and 2K Polyurethane paint. If your car needs a sealer and you want integrated clear that simulates the factory base coat/clear coat, this is it! Plus, it comes with a 5-year guarantee against fading, oxidation, and paint failure. If you want a paint job that comes out beautiful without the high price of a factory finish - this, is it! This paint service takes 1 to 2 days to complete.

THE ULTIMATE

If you want the best we have to offer, the Ultimate is for you! This paint service is an aftermarket factory like Base Coat/Clear Coat paint service that closely duplicates the factory finish. It has a Lifetime Guarantee for as long as you own your car. We highly recommend a wet sand and buff for that ultimate finish. This paint service will usually take 1 to 1-1/2 weeks to complete. **NOTE: Not all cars will be a good candidate for this paint service.**

SPOT/PANEL PAINTING

All our spot painting is done with a Base Coat/Clear Coat application for the purpose of color matching and ease of blending. Most times we must blend into other panels to match the rest of the vehicle. Spot Painting comes with a Lifetime Guarantee for as long as you own your car.
